

## feel the beat

rhythm sings pulsing through the night  
drumming sounds hearts are beating  
feel the joy singing in the night  
oh feel the beat move you feet now  
feel the beat move your soul

talk that talk with your conga drum  
djembe hands make me happy  
cut to the bone play your saxophone  
oh feel the beat move your feet now  
feel the beat move your soul

in the village  
drummers play their drums  
neighbors gather  
children are laughing  
in the city  
neighbors call the cops  
oh feel the beat move your feet now

feel the beat move your soul

angry words flashing through the night  
neighbor yells  
turn your shit down  
feel the fear crying in the night  
oh feel the beat move your feet now  
feel the beat move your soul

in the village  
drummers play their drums  
neighbors gather  
children are laughing  
in the city  
neighbors call the cops  
oh feel the beat move your feet now  
feel the beat move your soul

hey my friend i'm a peaceful man  
let us sing let us let go  
we don't fight  
get your thinking right  
oh feel the beat move you feet now  
feel the beat move your soul

in the village  
drummers play their drums  
neighbors gather  
children are laughing  
in the city  
neighbors come and dance  
oh feel th beat move your feet now  
feel the beat move your soul

rhythm sings pulsing through the night  
drumming sounds  
hearts are beating  
feel the joy singing in the night  
oh feel the beat move your feet now  
feel the beat move your soul
