

we the people (parts 2 & 3)

the people lead
the leaders follow
don't confuse how it's meant to be
if we make mud
the pigs will wallow
all you got to do is read your history
'cause everything we do is making history

the people lead
the leaders follow
don't confuse how it's meant to be
you better speak up today
it might be too late tomorrow
all you got to do is read your history
'cause everything we do is making history

the people lead
the leaders follow
don't confuse how it's meant to be
the grownups feed
the children swallow
all you got to do is read your history
'cause everything we do is making history

the people lead
the leaders follow
now don't confuse how it's meant to be
every empire built
has fallen in sorrow
all you got to do is read your history
'cause everything we do is making history

we the people stand
no longer in silence now
hey nama hey nama no mo ney
together we demand
and end to the violence now
hey nama hey nama ho
speak in the truth that you know

music and lyrics by charlie vaughan 2001
